4. Evaluating Progress Toward Measurable Goals MCM 1

Use this page to report on your progress and project plans toward achieving measurable goals identified in your Stormwater Management Program Plan (SWMP), including requirements in Part III.C.1. Submit additional pages as needed.

A. Briefly summarize the Measurable Goal identified in the SWMP in this reporting period.

The Village continues its public outreach efforts through the use of printed materials, updated public educational displays targeted towards residents and developers, a SWPPP for the Village and by directing the public to sources of information on the subject. Additional public outreach is provided during public hearings where stormwater is discussed on site and subdivision applications before the Planning Board.

B. Briefly summarize the observations that indicated the overall effectiveness of this Measurable Goal.

The Village disseminated brochures to their targeted audiences focused on animal waste, car washing, landscaping & lawn care, parking lot & street maintenance. The Village partnership with the Orange County Soil and Water Conservation District was not active the past 3 years. The Village maintains a storm water educational display at Village Hall and the Library.

C. How many times was this observation measured or evaluated in this reporting period?

For each operation/facility indicate whether the operation/facility has been addressed in the MS4's/Coalition's Stormwater Management Program(SWMP) Plan and whether a self-assessment has been performed during the reporting period. A self-assessment is performed to: 1) determine the sources of pollutants potentially generated by the permittee's operations and facilities; 2) evaluate the effectiveness of existing programs and 3) identify the municipal operations and facilities that will be addressed by the pollution prevention and good housekeeping program, if it's not done already.
